## Advance Vacuums Pack Power

Advance continues to drive innovation and reduce cleaning costs with efficient and cost-effective vacuum products. Continuing on the successful tradition of the CarpeTwin® 16, Advance has a complete line of upright vacuums to meet almost any carpet cleaning need. Designed for heavy-duty vacuuming and off-floor cleaning, the Advance CarpeTwin® vacuums have dual motors for more powerful cleaning. In the single-motor vacuum lineup, Advance offers the ReliaVac™ with an exposed cloth bag, as well as the PowerOne® with its enclosed paper bag and onboard tools. The Advance standards for vacuums continue to improve with the newly engineered backpack and canister categories. For example, the BackVacuum™ XP lets you move easily through congested areas, and the battery-powered AcroBatt™ allows for operator access to areas without electricity. The Advance Adgility™ is the lightest weight backpack vacuum on the market. In addition, the hospital-quiet Advance CaniStar™ dry canister vacuum allows operators to clean day or night.

### Advance ReliaVac™ 12 & 12DC Single-motor Upright Carpet Vacuums

- 12 inch path is cleaned with a durable steel brush roller
- ReliaVac™ 12 top fill bag enhances vacuum power
- ReliaVac™ 12 DC model has an easy to empty dirt cup
- Removable clear fan cover allows for identifying and removing clogs

### Advance PowerOne® 12 & 15 Single-motor Upright Carpet Vacuums

- 12 or 15 inch cleaning path
- Superior edge cleaning with dual side suction ports
- 5,000 rpm brush provides excellent pickup capability
- 5 levels of filtration for improved indoor air quality
- Onboard storage of 2 extra vacuum bags and off-floor cleaning tools
- Light weight reduces operator fatigue

### Advance ReliaVac™ 12HP & 16HP Single-motor Upright Carpet Vacuums

- 12 or 16 inch cleaning path
- High performance cleaning power with the aluminum brush roller
- Replaceable bristle strips and beater bars for versatile cleaning
- Removable clear fan cover allows for identifying and removing clogs
- Headlight illuminates work area

### Advance CarpeTwin® 14 & 18 Dual-motor Upright Carpet Vacuums

- 14 or 18 inch cleaning path
- Separate vacuum and brush motors for a powerful performance
- Cleaning path is swept clean by the 5,000 rpm brush
- Converts to a canister vacuum for cleaning with the onboard tools
- Hospital-quiet at 69 dB A
- Indoor air quality is protected by the hospital grade exhaust filter

## Advance CaniStar™ for Quiet Cleaning Anytime

Low sound and high performance come together in a compact package: Advance CaniStar™ dry canister vacuum. A quiet motor, only 53 dBs, allows for daytime cleaning in busy cleaning environments like hospitals, public buildings and schools. With its rugged, durable construction and quiet 1.5 hp motor, the Advance CaniStar™ is ideal for continuous commercial cleaning, easily logging more than 1,000 hours of operation.

Advance CaniStar™ sets the standard in true H.E.P.A. filtration technology. The Advance CaniStar™ can capture particles as small as 0.3 um, aiding in the improvement of indoor air quality. Trust the Advance CaniStar™ for hospital-quiet operation and vacuuming power anytime day or night.

### Advance CarpeTwin® 16XP Dual-motor Upright Carpet Vacuum

- 16 inch cleaning path is swept clean in one pass
- Durable construction allows for years of heavy-duty use
- 1 3/4 inch hose and wand are onboard for off-floor cleaning

### Advance CarpeTrier™ 28 Large Area Upright Carpet Vacuum

- 28 inch cleaning path allows for increased productivity
- Dual vacuum motors provide generous pickup power
- Large 1 bushel capacity cloth bag is standard
- Carpet brush propels the machine, minimizing operator fatigue

### Advance Adgility™ Backpack Vacuum

- Lightweight at only 6.4 pounds
- Powerful 1,000 watt motor generating 100 CFM and 96 inches of waterlift
- Three levels of filtration standard, H.E.P.A. filter optional
- 50 foot (15 m) safety yellow power cord for long cleaning reach
- Includes 12 inch combination floor tool, dust brush, crevice tool and six dust bags

### Advance BackVacuum™ XP Backpack Vacuum

- Patented articulated design moves with the user for greater range of motion and increased productivity
- Dual H.E.P.A. H13 filters standard for exceptional filtration and improved indoor air quality
- 1,200 Watt motor generates high CFM and waterlift for deep, one-pass cleaning
- Form fitting double wall ventilation system with massaging bumps provides greater comfort
- Rounded low profile design is maneuverable in tight areas

### Advance AcroBatt™ Backpack Vacuum

- Battery powered
- Patented articulated design moves with the user for greater range of motion and increased productivity
- Dual H.E.P.A. H13 filters standard for exceptional filtration and improved indoor air quality
- Form fitting double wall ventilation system with massaging bumps provides greater comfort
- Rounded low profile design is maneuverable in tight areas

## Advance Extractors are Industry Leading

From handy spot cleaners to innovative riding machines, Advance offers a complete line of extraction equipment.

The Advance AquaSpot® carpet spot extractor works as a convenient, easy-to-use extractor for quick clean-up of spills or touchups on carpet or upholstery. The Advance AquaClean® line is one of the most popular extractors on the market. A self-contained extractor, the AquaClean® provides superior cleaning results and leaves carpets nearly dry and ready to use. The Advance AquaPro® line of portable extractors is offered in 3 models, offering 150 or 300 psi for various applications. The AquaPro® H and XP offer hot water for the toughest soilage. The Advance AquaMax® battery extractor features a slide out brush deck for edge cleaning and dual cleaning modes. The industry leading Advance AquaRide® rider extractor features an onboard battery charger, dual-cleaning modes and one touch cleaning.

With the complete line of extractors from Advance, carpets are cleaned better, faster and easier, resulting in increased in productivity.

### Advance AquaClean® 16ST/16XP/18FLX

#### Self-Contained Extractors

- Aerodynamically engineered vacuum shoe for constant acceleration and superb water recovery
- 1.5 three stage vacuum motor, 117 inch of waterlift, 50 foot (15 m) cord
- Brush and vacuum shoe removed without tools
- XP and FLX models include onboard spotting tool

### Advance AquaClean® 12ST

#### Self-Contained Extractor

- Single nozzle spray system allows for even coverage over the cleaning path
- Optional kit for hard floor scrubbing
- 5 gallon solution tank
- 12 inch cleaning path
- Single spray jet technology allows for even coverage over cleaning path

### Advance Aquamatic™ Selectric

#### Automatic Extractor

- Self propelling drive with four speeds for forward and reverse
- 25 gallon tank-in-tank design allows for a low profile
- 18 inch brush reverses for double scrubbing

### Advance AquaMAX®

#### Automatic Extractor

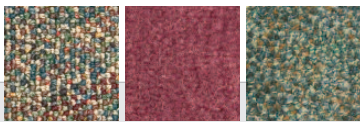

- 40 gallon solution tank with a 25 inch cleaning path for high productivity
- Dual mode cleaning for low moisture and deep cleaning
- Slide out brush deck allows for edge cleaning
- Ease of maintenance with no tools removal of the brush, vacuum shoes and vacuum motors
- Battery watering system available as optional kit

## Advance AquaRide® SE and AXP™ Increase Cleaning Productivity

Increase productivity by 400% compared to conventional walk-behind extractors with the Advance AquaRide®, the industry's first rider sweeper/extractor. With dual cylindrical technology for sweeping and extraction efficiency, Advance AquaRide® sweeps and extracts in one pass.

A wide 28 inch cleaning path and a 63 inch turning radius delivers superior cleaning results. The Advance AquaRide® provides more than two hours of cleaning time per tank, combined with easy maintenance and low operator fatigue that add to the bottom line. Floors are left almost dry, reducing dry time significantly and allowing you to extract whenever your floors need it. The result is a reduced cost of cleaning.

AquaRide® is now available with onboard AXP™ onboard detergent dispensing system.

## WHY WALK WHEN YOU SHOULD RIDE?

AquaRide® AXP™ model shown

### Advance AquaPro® XP/H/C Portable Extractor

- AquaPro® XP features 300 psi or 75 psi and a built-in heater
- AquaPro® H features 150 psi and a built-in heater
- All three models, including the AquaPro® C, have a 14 gallon solution tank
- Onboard storage of a floor tool and chemical bottles or other cleaning tools

### Advance AquaSpot® Carpet Spot Extractor

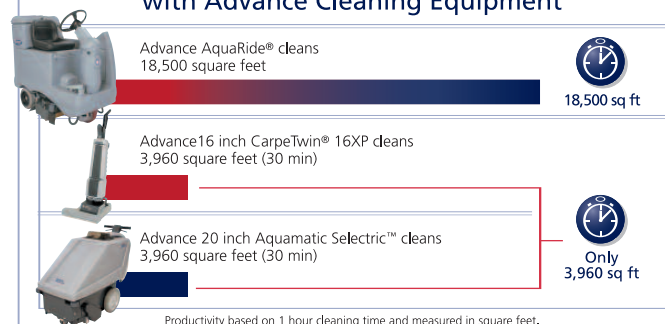

- A clear recovery tank with 2 dumping ports allows for ease of cleaning
- Exhaust air is filtered for maintaining indoor air quality
- Optional cart is designed with a tray and holds cleaning accessories

### Advance HydroDry™ Dryer

- Durable rotocast polyethylene stackable blower with a 0.5 hp motor
- 3 speed settings to select the right amount of air movement
- Blower can be angled in three different positions to direct air as needed
- 25 foot power cord to reach those distant outlets

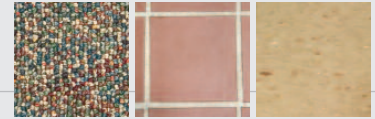

## PUMP-UP YOUR PRODUCTIVITY with Advance Cleaning Equipment

## Advance Sweepers: the Fast Track to a Clean Sweep

From walk behind sweepers to rider sweepers, Advance sweepers provide superior cleaning results in a wide variety of applications and floor surfaces, including carpet. Featuring tools-free maintenance and easy adjustment with operator-friendly controls, recent product innovations include onboard battery chargers, enhanced filtration and maintenance-free gel batteries. Whether you need a rider sweeper, such as the Terra® 3700B, for larger cleaning areas; or a quiet, walk-behind sweeper, such as the Terra® 128B/132B, for smaller areas, you'll find the right product for your facility with Advance. With Advance sweepers, it's easy to keep facilities clean — inside and out.

### Advance Terra® 3700B Rider Sweeper

- 37 inch sweep path
- Battery operated
- Standard onboard battery charger
- Tools-free removable brushes and hopper
- Rugged construction for carpet or hard floor applications

### Advance SelectSweep® Push Powered Sweeper

- 27 inch manual push sweeper
- High productivity replacement for push broom
- Large 1.4 cubic foot hopper

### Advance Terra® 128B/132B Walk-Behind Sweepers

- Available in 28 or 32 inch sweep paths
- Battery operated
- Standard onboard battery charger
- Tools-free removable brushes and hopper
- Rugged construction for carpet or hard floor applications

# Advance Floor Machines Feature Easy Maintenance

Clean floors, both hard and soft, with a floor machine from Advance. The standard 175 rpm machines vary in size from 13-20 inches with motors ranging from .5 horsepower to 1.75 horsepower. All machines come standard with a safety switch and pad driver. A versatile two-speed floor machine operates at 175 and 275 rpm. To customize the cleaning capabilities of each machine, Advance provides a full line of accessories, including solution tanks, and a complete selection of pads and brushes. Advance floor machines operate efficiently, reliably and productively. Advance floor machines are made to the high standard of quality that you have come to expect from Advance.

## Advance SD 130 Floor Machines

- 13 inch model is ideal for small areas
- Operates at 175 rpm
- Durable 0.5 hp motor
- Pad driver included

## Advance Pacesetter™ 17/20/17HD/20HD/20SD Floor Machines

- 17 and 20 have 1.0 hp, 66 frame motors at 175 rpm
- 17HD and 20HD have 1.5 hp, 66 frame motors at 175 rpm
- 20SD is 20 inches with 1.75 hp, 66 frame motor at 175 rpm
- Ergonomic molded handles for safety and comfort
- Pad driver included

## Advance Pacesetter™ 20TS Two-Speed Floor Machine

- Versatile 20 inch two-speed floor machine
- 1.5 hp DC motor
- 66 frame motors run at 180 and 320 rpm
- Ergonomic molded handles for safety and comfort
- Pad driver included

## Advance All-Purpose Matador™ 20 Floor Machine

- 285 rpm is ideal for a wide variety of applications
- Durable PowerFlex™ belt driven transmission
- Powered by a 1.5 hp DC rectified motor
- Built-in 3 gallon solution tank provides extra down pressure and facilitates spray buffing
- Convenient finger tip handle adjustment and solution control
- Pad driver included

## Advance Burnishers Add Luster to Floors

Advance offers a complete line of burnishers available in cord electric, propane, and battery power sources. Three cord electric models offer exclusive, patented technology to eliminate any operational variances for almost foolproof burnishing. The dust collection model provides superior dust collection enabling one pass burnishing. Six propane models are available in three different sizes to match your application. Three battery burnishers are available: two walk behind models and a rider. The walk-behind models are built to last offering dual dust collection bags and adjustable pad pressure. Advance introduced the battery rider burnisher to the industry to further increase burnishing productivity. Rely on Advance burnishers for all of your burnishing needs.

### Advance Whirlamatic™ 20 Ultra Burnisher

- Exclusive "pintle" motor mounting allows motor to pivot with the flexible direct mounted pad holder
- Extra high speed 2,000 rpm burnishing with a 1.5 hp motor
- Superior dust collection system for one pass burnishing
- Gas cylinder design keeps constant pressure on full contact pad, producing an even shine

### Advance Whirlamatic™ UHS 20 Burnisher

- Patented Constant-Flo™ torsion spring design to maintain pad contact on uneven floors
- Center mounted direct drive motor distributes weight evenly
- High speed burnishing at 1,500 rpm with a 1.5 hp motor
- Finger tip handle release lever

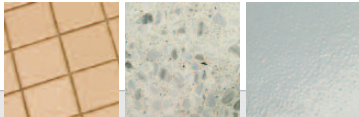

### Advance Whirlamatic™ 20 Plus Burnisher

- Exclusive "pintle" motor mounting allows motor to pivot with the flexible direct mounted pad holder
- High speed 1,500 rpm burnishing with a 1.5 hp motor
- Gas cylinder design keeps constant pressure on full contact pad, producing an even shine

## Whirlamatic™ 2700 Maximize the Shine in Less Time

Improve floor appearance and save time with the industry's first rider burnisher. Burnishing more than 34,375 square feet per hour in open areas, the battery powered Advance Whirlamatic™ 2700 reduces operator fatigue and increases productivity while creating an ultra high-gloss shine. It provides the shine of a propane burnisher without the emissions. The dust collection system effectively collects the dust and eliminates the need of dusting after burnishing. No cords, no fumes, no emissions, no mess and only 70 dB noise level. Battery watering system kit available as an option for ease of battery maintenance. The Whirlamatic™ 2700 is the ideal

solution for facilities that require fast, efficient one pass burnishing.

### Advance Whirlamatic™ Pro 21/24/27

#### Propane Burnishers

- Propane burnishers available in 21, 24, and 27 inch models
- Optional engines include 13 hp Honda, 17 hp Kawasaki, and 22 hp Robin
- High speed burnishing at 1,800 rpm (24 inch, 27 inch ) and 2,000 rpm (21 inch)
- Up to 8 hours run time on a single tank of propane

### Advance Whirlamatic™ VS20 & 20UHSB

#### Battery-Powered Burnishers

- Designed for quiet cordless one pass burnishing
- Dual dust collection bags
- Pad driven and self propelled options available
- Extra high speed 2,000 rpm burnishing
- Fully adjustable pad pressure
- Battery watering system kit available on 36 Volt machines

## WHY WALK WHEN YOU SHOULD RIDE?

Whirlamatic™ 2700

Whirlamatic™ UHS 20

**34,375**  
sq ft

**10,000**  
sq ft

- Riding is safer than walking because of better sight lines
- Employees are less fatigued which means they can clean longer and more areas
- Rider speed is faster than walking — employees can clean more square footage in less time!

***The Result? Increased productivity that drives down the cost to clean***

## Advance Drives Innovation with Automatic Scrubbers

Advance introduced their first floor scrubber in 1928 and continues to lead the industry with innovative features including: interchangeable scrub decks, onboard battery chargers, programmable operator controls, machine self-diagnosis, hands-free scrub head attachment/removal, and countless ergonomic and safety features. Not to mention the revolutionary rider scrubber models that fit through a standard doorway — demonstrating again that Advance leads the way.

It takes just one pass for Advance automatic scrubbers to leave floors clean, dry and ready for foot traffic. With a complete line of automatic scrubbers, ranging from small cord electric machines designed to replace the mop and bucket, to rider scrubbers capable of cleaning 31,500 square feet an hour, Advance has the right automatic scrubber to meet your cleaning needs.

### Advance Micromatic™ M17B/M17E Automatic Scrubbers

- Gel batteries with onboard charger, on battery model
- Smart Solutions™ solution control
- 6-gallon solution and recovery tanks

### Advance Micromatic™ 14E Automatic Scrubbers

- 14 inch scrub path, cord-electric
- Cylindrical scrub brush operates at 1,000 rpm
- Front and rear squeegee system picks up solution in all directions
- 3 gallon “lift-out” solution and recovery tanks

### Advance Micromax™ 17E/17B/20B Automatic Scrubbers

- Available in 17 or 20 inch scrub path, cord-electric or battery
- 9.6 gallon solution and recovery tanks
- Standard onboard battery charger on battery models
- Click-off/click-on scrub heads
- Heavy-duty steel frame

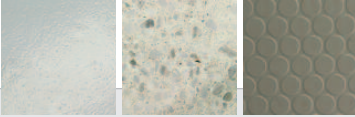

### Advance BA 5321/D Automatic Scrubbers

- 21 inch scrub path, battery operated
- 14.5 gallon solution and recovery tanks
- Standard onboard battery charger
- Click-off/click-on scrub heads
- Tip-back tanks for full accessibility

## Advance Revolutionizes Automatic Scrubbers with Onboard Detergent System

Scrubbing has become even easier with AXP™, the on-board detergent dispensing system available on select Advance automatic scrubbers. AXP eliminates the need to pre-mix detergent and clean water. Setting the required dilution ratio control on the 1.25-gallon AXP cartridge allows for the precise amount of detergent to combine with clean water at the scrub deck. Detergent and clean water are never blended in the same tank, eliminating wasted, unused solution. The AXP system works with any brand of detergent, allowing the customer to continue using their existing detergent programs.

Multiple AXP cartridges can be easily stored with different types of detergents, making it easy to switch between degreasers, neutralizers, or green-certified detergents without having to dump and refill the solution tank.

### Advance Micromax™ 20DD & 20DC Automatic Scrubbers

- 20 inch scrub path in disc or cylindrical brushes, with traction drive
- 9.6 gallon solution and recovery tanks
- Smart Solutions™ adjustable solution control
- Tools-free interchangeable scrub decks

### Advance Convertamatic® 24/26/28 C/D Automatic Scrubbers

- Available in 24, 26 or 28 inch scrub paths
- 20 gallon solution and recovery tanks
- Convertamatic® AXP™ available with factory installed AXP onboard detergent dispensing system on 26 and 28 inch sizes
- One-Touch™ scrubbing and programmable operator controls

### Advance Advenger® & Advenger® AXP™ Automatic Scrubbers

- 30 gallon solution and recovery tank.
- QuickChange™ no tools interchangeable 24, 26, 28 and 32 inch scrub decks in disk and cylindrical.
- Industry leading 63 inch (160 cm) aisle turning radius.
- Advenger AXP™ available with factory installed AXP onboard detergent dispensing system on 26 and 28 inch sizes
- Battery watering system standard on AXP machines; Kit available as an option on non AXP machine

## Advance Wet/Dry Vacuums for Daily Use

Wet messes, dry dirt, or somewhere in between, Advance has the right wet/dry tank vacuums for almost any daily cleaning challenge.

Known throughout the industry for rugged reliability, versatile Sprite® vacuums excel in wet and dry applications. Used daily in commercial and government buildings, schools, shopping malls, airports and healthcare facilities, operators can count on Sprite® for many years of service.

The AWD is available with an optional front air scoop kit. Lightweight and compact, the AWD is ideal for transporting between facilities.

### Advance Sprite® Air Scoop™ 12 & 16 Wet/Dry Tank Vacuums

- 24 inch front mount squeegee standard, tools are separate
- 1.3 hp 2 stage motor, waterlift 88 inch, 91 CFM, 73 dB A
- Empty by tip and pour or front drain hose, 50 foot cord
- Removable tank for easy cleaning

### Advance AWD w/ and w/o Air Scoop Wet/Dry Tank Vacuums

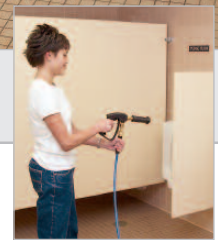

- Available in 20 and 15 gallon sizes, with compact footprint to take up minimal room in tight spaces
- Front mount squeegee optional in 24 inch or 30 inch sizes
- Adjustable handle folds over machine for easy transport
- Optional H.E.P.A. filtration available

# Advance Reel Cleaner™ Functions as Five Machines in One

The Advance Reel Cleaner™ all-purpose machine offers the capabilities of a restroom cleaner, pressure washer, wet/dry vacuum, carpet extractor and carpet spotter — all wrapped up in one ultra-convenient machine. Designed as a touchless cleaning system, mops, spray bottles and time-consuming wipe downs are a thing of the past. The result is increased cleanliness and productivity.

Designed with Total Clean™ technology specifications, the Advance Reel Cleaner™ comes equipped with a standard accessory kit and ample space for each cleaning tool. Unique reels contain each hose, eliminating tangles and providing compact storage.

The Advance Reel Cleaner™, combined with a cleaning fluid, accommodates effortless, touchless cleaning of restrooms, kitchens, locker rooms, stairwells and other areas. One ultra-convenient machine with five cleaning functions, the Advance Reel Cleaner™ truly sets the standard for an all-purpose cleaning machine.

## Advance Reel Cleaner™ All-Purpose Cleaner

- 25 gallon clean water tank
- Onboard storage for standard accessories
- Any shape chemical bottle fits on the machine
- Clean water gauge for emptying and monitoring tank
- Clam-shell design for ease of servicing
- 2 chemical metering system
- Low profile and compact design for ease of transporting

Increases productivity by 300% compared to manual wipe-downs.

## Advance Pressure Washers Blast Dirt Away

Offering a variety of accessories and power source options, Advance pressure washers do the job at any location. Electric powered pressure washers are ideal when working around buildings, repair shops and factories. For construction sites and other outdoor applications where outlets are a scarcity, gas engine powered pressure washers provide the needed mobility to get the job done. The Advance pressure washer line ranges from 2 to 4 gpm with a pressure range up to 2,000 psi and are offered in cold and hot water models. Each pressure washer comes complete with a standard hose, gun and wand. Additional optional accessories include a variety of brushes, extension wands, turbo wands and sandblast attachments. Blast away dirt and grime with an Advance pressure washer.

### Advance AdSpray™ 1500A Pressure Washer

- 2 gpm and up to 1,450 psi
- 2 hp electric motor
- Includes: Hose, spray gun and wand, chemical injector and thermal valve

### Advance AdSpray™ 1500BGC & 1800HGC Pressure Washers

- Cart mounted gas pressure washers available with a 5 hp Briggs or 5.5 hp Honda
- 3.5 gpm with up to 1,500 and 1,800 psi models
- Includes: hose, spray gun and wand, chemical injector and thermal valve

### Advance AdSpray™ 1000XPC & 1000XPCD Pressure Washers

- Cart mounted electric pressure washer available with a 1.5 hp electric motor
- 2.2 gpm and up to 1,000 psi
- XPC handles to 140° F, while XPCD handles up to 180° F
- Includes: Hose, spray gun and wand, chemical injector and thermal valve

### Advance AdSpray™ 2000VGC Pressure Washer

- Cart mounted gas pressure washer with 9.5 hp Vanguard engine
- 4 gpm and up to 2,000 psi
- Includes: Hose, spray gun and wand, chemical injector and thermal valve

### Advance AdSpray™ 1000DEC & 1500DEC Hot Water Pressure Washers

- Cart mounted hot water electric powered, diesel heated pressure washer
- 3 gpm with up to 1,000 psi model and 3.5 with up to 1,500 psi model
- 2 and 3 hp electric motors
- 2.5 gallon SS diesel tank heats water to 140° F
- Includes: Hose, spray gun and wand, chemical injector and thermal valve

Whether developing new equipment, enhancing existing equipment or creating service and maintenance programs, we approach all aspects of development using Advance Total Clean™ Technology.

Total Clean™ Technology, exclusively from Advance, is an all-encompassing design approach that links the process of designing equipment that cleans better with equipment design that is easier to clean and maintain. The result is a reduced cost of ownership and increased productivity that drives down the cost to clean.

Keeping your equipment working effectively is essential for superior cleaning. Advance provides manufactured parts and components through APA to help keep your Advance products working at peak performance. APA are designed and built for our machines so they can be counted on to maintain our machines. They are value priced and quality built. By choosing APA, you can be certain you're getting the quality part you need for your machine.

**Sustainability** Nilfisk-Advance's fundamental attitude to the working environment and pollution is in accordance with the first principle of the United Nations conference declaration on Environment and Development (Rio, 1992):

"People are entitled to a healthy and productive life in harmony with nature."

***Our environmental policy states, among other things:***

- the employees shall have a safe, healthy, motivating and inspiring working environment
- the utilization of resources shall be continuously improved
- our production must be controlled, including development, sourcing and deliveries, in order to minimize environmental impact

***We actively participate in manufacturing practices that are environmentally friendly, including:***

- recycling and reuse of our rotomold plastic, giving it new use as battery tray housing
- recycling of all metals, aluminum, cardboard and batteries
- efficient lighting in our corporate and manufacturing facilities that use less electricity
- equipment design technology that minimizes the amount of water needed to clean

Advance products are manufactured by Nilfisk-Advance Inc., the world's largest designer and manufacturer of high quality commercial and industrial floor maintenance equipment.

### **Quality**

A quality approach to cleaning is the commitment we make to every one of our customers. Along with each machine comes pride, craftsmanship, innovative technology, professional expertise and an international network of parts, maintenance and service support professionals.

### **Reducing the Cost to Clean**

Every aspect of our business revolves around creating cleaning solutions that generate superior cleaning results, increase productivity and reduce the cost of ownership. The result is superior cleaning products that drive down the cost of cleaning. The pride we take in production and service will become your pride of ownership when you buy Advance equipment.

**At Advance, we are defining cleaning innovation.**
