

NEW OUTDOOR ALL-PURPOSE LITTER SWEEPERS FROM NILFISK OUTDOOR

Compact. Flexible. Fast. Powerful.

Nilfisk introduces three new vacuum sweepers – the RS 500, RS 850 and RS 1300, all built for superior cleaning, increased productivity and operator safety.

RS 500

- Lightweight and compact for easy transportation.
- Patrols litter in congested areas, sidewalks, alleyways, stadiums, and larger parking lots and curbs
- Provides high suction and strong airflow performance for easy pick-up of bottles, stones and other heavy debris.
- Multi-level high-dump for easy emptying into garbage dumpsters.

RS 850

- A multi-tasking machine - cleans sidewalks, congested areas, as well as city and urban spaces with ease.
- Handles concentrated amounts of debris like bottles, stones, garbage and leaves with exceptional pick-up control.
- Easily handles irregularities in surface and grade changes.
- Optional snow brush easily removes snow with outstanding suction performance.

RS 1300

- Removes heavy amounts of debris from multiple surface types (wet or dry).
- Multi-level dumping system eliminates waste transfer (hopper empties from heights up to 63 inches).
- Optional third broom elevates to varying heights for efficient cleaning.
- Rear-end steering system provides tight turning radius.

Nilfisk

Nilfisk knows cleaning equipment inside and out.

NILFISK OUTDOOR PROVIDES:

- Increased sweeping efficiency in small or congested areas such as sidewalks, parking lots, alleyways and more
- Low fan maintenance requirements
- Outstanding dust control
- Flexible rear-end steering for increased operator maneuverability
- Efficient and reliable cleaning
- High volume airflow that ensures powerful suction for increased productivity
- Clear View™ for unparalleled operator line-of-sight that increases operator visibility and safety
- Localized equipment training and service support
